

ILS REVOLUX

Flame retardant, rolling screen for energy saving and solar reflection

Designed for endurance and smooth rolling, ILS REVOLUX combines high heat retention with effective shading. The heat retention brings high energy savings, while solar reflection protects plants from radiated heat on warm days. For extra ventilation, an open structure F-version is available.

All Svensson inside screens can be used under all types of greenhouse cover. They are UV stable and remain clean and effective for a long time.

REVOLUX is made from flame retardant materials alone, this is the optimum choice for all installations from a fire safety perspective. It meets the highest safety standard in the horticultural industry and test reports are available from various authorities.

- ☀ = Light transmission in sunlight
- ☁ = Light transmission when overcast
- ≡ = Energy saving

		☀	☁	≡	
	ILS 10 REVOLUX	71%	65%	45%	
	ILS 50 REVOLUX	39%	35%	55%	
	ILS 60 REVOLUX	31%	28%	60%	 Aluminium strip
	ILS 70 REVOLUX (COLOR)	21%	19%	65%	 Transparent strip

Warranty: 5 years under all types of greenhouse covering, see Svensson's limited warranty for all terms, conditions and exclusions in writing.
