

FLS

Outdoor shading and weather protection

FLS is an outside screen that protects the crop and controls the climate. During the day the screen's open structure provides solar reflection and cooling – reducing both greenhouse temperature and plant temperature. At night it helps reduce radiated heat loss from the plants.

FLS can be used for rolling, sliding or fixed screen installations.

- ☀ = Light transmission in sunlight
- ☁ = Light transmission when overcast
- ≡ = Energy saving

		☀	☁
	FLS 50 W/B	49%	45%
	FLS 60 W/B	33%	30%
	FLS 70 W/B	26%	24%

Warranty: 5 years under all types of greenhouse covering and 3 years with outdoor use, see Svensson's limited warranty for all terms, conditions and exclusions in writing.

This sample is for illustrative purposes only and may vary in appearance and design from the delivered product. Although the information in this sample card has been composed with care, Svensson does not accept any liability in respect of its accuracy.
